

However Small a Hole (Loss), It Will Sink the Boat One Day

If you're overwhelmed trying to cut losses or boost profits — without throwing more money at so-called experts — you're in the right place.

After 32 years' experience in 22 countries (USA, EU, Dubai to China) with 100+ ethnicities/ nationalities, I've built tools that deliver **quantum leaps in cash flow and cost control**.

Let's schedule a **free 30-minute call** to explore how we can **optimize your operations and unlock hidden profit**.

Most auditors cannot think beyond ticking the boxes if you hand them invoice and purchase order. We can get this kind of audit done with teaboys.

Remember Fodder Scam of Lalu Prasad , Bihar Ch. minister? Even if there is no scam, we need to evaluate, using fodder analogy, if a buffalo can eat 1500 kg of fodder on India's independence day, how many trucks are needed to deliver this stuff, where could that be stored, etc.; we need to evaluate if this work needs so many manhours, kilograms of materials and whether the day-rate and material prices are reasonable; and how expensive are they from last year.

In just **2 days**, my AI-driven team with forensic skills, will identify **at least \$60,000 (INR 0.5 CR) in annual savings** (for \$50M/ INR 450 CR. turnover). We are looking at saving 4 lacs per month starting next month. Or we keep working **free of charge**.

No Cure, No Pay. Simple.
